

Messy goes to  
**OKIDO**

# Creating the next generation of scientists

Inquisitive and loveable monster Messy brings science to life as he adventures with his best friends Zoe and Felix through the colourful world of OKIDO. The brave trio go on journeys of discovery and - with help from the eccentric scientists, Zim, Zam and Zoom - unearth the answers to their big questions like... Why is the sky blue? And how do pictures get into the TV?
