HAPPINESS IS A CHAIN REACTION

Welcome to Happy Town, where everyone is happy, and the 'Happy Town' sign shines brightly. However, it only takes one person to feel unhappy, and the sign fizzles out! This is where Pep the Hedgehog and his best friend Tabitha leap into action. In each episode, Pep discovers three unhappy towners, each with a unique problem, and, after jumping into his special 'Puzzle Palace', Pep figures out a way for each of the troubled towners to help each other! The community comes together in a chain reaction of good deeds, and as the final problem is solved, the Happy Town light shines brightly once again!

PEP & THE WORLD OF HAPPY TOWN

STORYLINES

LEON'S LULLABY

The Happy Town light has gone out! Leon's airbed is over-inflated, Lia can't keep time on her ukulele, and Romy's basketball is flat as a pancake. With Pep's help, Romy uses the excess air from the airbed to fill her basketball. This makes the bed comfy for Leon to sleep on. Lia uses the bouncing ball's rhythm to play Leon a soothing lullaby. Everyone in Happy Town is happy again!

GOTTA DANCE

The Happy Town sign is blinking! Lia's projector breaks, leaving her campers without entertainment. Talullah can't find a room to teach her dance class in and Dockie has too many flowers he can't sell. Guided by Pep, Dockie makes flower headbands which Tallulah's dance class wear during a performance to entertain Lia's camper's restoring joy to Happy Town.
